## \*Fenda Extenda £30

Sport Version

Standard Thunderbird, Legend & Adventurer version.

\*Both of the Fenda extenda's have been discontinued by Triumph for quite some time. The originals were fitted by drilling the mudguard and fixing with plastic pop rivets that are still available from Triumph.

I don't suggest you fit them this way because every single mudguard I have seen with them fitted has rust around the drilled holes.

I suggest a good 2part epoxy glue, this also means you do not have to remove the mudguard to fit them.
